

Quality Control Inspectors

Multiple Quality Control Inspector Positions to be filled
\$18/hour for day shift | \$19/hour for evening shift
12-month term contracts, with opportunities to renew and progress

Founded in 2015, Precision ADM is a global engineering and manufacturing solutions provider that uses 3D Printing, as a core technology, complemented by multi-axis machining to manufacture high value components and devices. Due to COVID-19 demand, Precision has secured a large government contract to mass produce its newly developed 3D-printed Nasopharyngeal swab, CANSWAB.

This rapidly growing, high-tech manufacturer has secured an additional 20,000 square foot facility to build the needed cleanroom manufacturing area to mass-produce swabs. Precision is headquartered in Winnipeg and is ISO certified.

Key responsibilities include:

- Perform visual inspections and destructive tests to specified inspection plans;
- Accept or reject final product
- Meet efficiency targets established by the Project Quality Lead;
- Report inspection and test data; generate and maintain quality records;
- Actively participate in process improvement and resolve quality related issues in a timely manner;
- Maintain excellent Health and Safety standards;
- Gather information on non-conformances and assist the Quality Lead on corrective actions;
- Complete incoming inspections based on Inspection Plans; and
- Manage the calibration and maintenance of Inspection, measuring and test equipment.

Experience Requirements:

- Minimum of High School Diploma, relevant Post-Secondary Diploma referred;
- 2 – 5 years of relevant work experience in Quality or equivalent related experience;
- Understanding of quality management systems based on ISO 9001 requirements; and
- Understanding of good manufacturing practices.

Required Skills and Attributes:

- Ability to solve problems and make decisions in a fast-paced manufacturing environment;
- Excellent attention to detail;
- Ability to read and understand specifications and drawings;
- Strong working knowledge of Microsoft Office;
- Strong verbal and written communication skills;
- Ability to work independently and perform multiple tasks; and
- Ability to stand, kneel or bend, for extended periods of time, and to lift between 25-35lbs.

Must be available for days, weekends and evening shifts as required; and must pass RCMP background check and meet the requirements of the Controlled Goods Program. Precision offers an inclusive and diverse working environment.
